## **EXHIBIT A SCOPE OF SERVICES**

### **BACKGROUND AND ORGANIZATION**

Innovate Memphis (IM) is a nonprofit that delivers bold solutions to some of the most pressing urban challenges in Memphis. IM brings together government, business, community leaders and citizens to address long-standing civic issues. We believe that innovation ignites change for the greater good and we strive to deliver sustained change benefiting all Memphians.

The Mobility Management program is a part of IM's partnership with the Memphis Fire Department's Emergency Medical Services Division in delivering solutions to enhance service delivery and reduce ambulance transports for non-emergency purposes.

#### **Purpose:**

The Mobility Management program includes launching a One-Click One-Call transportation center. The One-Click One-Call strategy is a solution designed to connect those who need transportation to options on all travel modes. A single call and webpage provides detailed information on available public and private transportation services and a connection to those services. The pilot program will focus on better connecting seniors and disabled citizens to transportation choices to access health care and other wellness services.

The proposed web platform will facilitate the launch of the One-Click One-Call Transportation Resource Center. The platform will serve as a single point of entry that allows ride-seekers, mobility managers, medical and social service providers and information and referral specialists to have access to comprehensive information on the full range of transit, non-emergency medical, paratransit, private, human service and community-based transportation services.

The platform will simplify and streamline transportation access and mobility planning across multiple agencies and providers.

### **SCOPE OF SERVICES**

The web-based platform will connect ride-seekers with trip planning options tailored to their identified needs. Ride-seekers will use the system to find an appropriate transportation option, determine how to travel from one point to another, screen eligibility for specialized services and programs, and learn how much such travel will cost. This phase of the pilot focuses on trip discovery with direct connections to rides with select providers only. The long-term goal is to allow for trip scheduling, payment, and provider dispatch for all participating providers through interactions with a transportation providers' software.

IM encourages creativity in the proposals submitted; however, there are certain requirements for the platform that should be present. Your proposal must account for all of these requirements. Respondents should design their submissions to create the most convenient, sustainable, and attractive option for users.

The CONSULTANT must address their plan to provide the following key features in the system's design:

### **Provider database**

---

The platform should include an underlying database to house information on private transportation providers, fixed route transit operators, human service transportation providers, demand response operators, non-emergency medical transport providers, and others. The CONSULTANT should detail how transportation provider information will be stored and made available to users.

The transportation provider database should include but not be limited to the following: scheduling and contact information, details on the provider's services, accommodations capability, rates, payment options, and restrictions.

### **Usage management and trip planning**

---

The CONSULTANT should detail features for identifying travel options based on the user's mobility needs, screening user eligibility for programs and transportation services, and planning a trip, which may include two or more travel modes. A number of variables will determine appropriate transportation options for the individual. The system should screen for these factors and match ride-seekers with the most appropriate provider and trip plan. The following minimum features are requested:

- Trip parameters entry
  - Allows the user to enter the parameters of the trip including start and end address for an initial trip and the return trip (if different), and desired arrival times.
  - Allows map point selection to populate start and end address.
  - Uses inputs to recommend trip and route options.
- Eligibility and screening functionality
  - Allows the user to select the eligibility and accommodations information required to identify suitable transportation options for each segment of a trip.
  - The site should screen users for services and benefits.
- General transit specification feed (GTSF) of local transit system
  - Allows for integration of schedule, route, stop, fare, and calendar data for fixed-route public transit services. GTSF can be acquired by request from Memphis Area Transit Authority.

### **User registration**

---

The CONSULTANT should discuss features to manage data and experience information for multiple user types. The following minimum features are requested:

- User accounts
  - User accounts should securely store basic personal information including first name, last name, address, city, state, zip code, email address, phone number, preferred language, username, password, trip history, use frequency, and trip preferences/requirements.
  - The website should also allow users to query the site without creating an account.
- Administrator portal
  - Allows access to user accounts for maintenance, troubleshooting, and data analytics.
  - Provide Administrators with the ability to assign levels of privileges to other administrative users, individuals or groups to various parts of the system.

### **Site analytics and reporting**

---

The CONSULTANT should discuss the reporting capability embedded in the system to ensure access to comprehensive and easy to use reports. The platform should contain a full report generating capability to produce custom reports and should be able to perform ad hoc reporting as required. Report functionality should address the following:

- Geocoding capability.
- Origination and destination tracking.
- Data collection mechanism for feedback about the user's trip purpose, website utility, ease of use, user characteristics (senior, person with a disability, veterans), trips queried, trips taken, trip quality, and information on website activity over time, including the number of new and returning visits, page views, and the length and frequency of page visits.
- Customized administrative reporting capabilities, reports to include, but not limited to, the following:
  - Requests/Ridership
  - Trips (one-way passenger trips) taken by individuals by various periods (e.g. monthly, annually).
  - Trips provided by program (e.g. various human service transportation programs)
  - Trips by user classification (e.g. veteran, senior, etc.)

### **Security**

---

The CONSULTANT should describe the system's security features to prevent unauthorized or accidental disclosure, alteration, or destruction of data, including the following features:

- Prevent unauthorized users from tampering with data.
- Manage user group privileges and other access control features.
- Monitor user access of data and maintain an audit trail.
- Assure electronic transfer of data is encrypted.

### **Other Requirements**

---

The following are requested:

- Language selection and translation

- The default language will be English with clear and easy Spanish language selection and translation.
- Site hosting
  - Recommendations on cost-effective, easily transferable hosting options should be presented.
- Accessibility
  - Finished product should be ADA compliant.
  - System must be built in accordance to the Web Content Accessibility Guidelines, provided by the W3C and should also be easily accessible to the novice as well as the experienced Internet user.
- Ease of use and limited paging
  - Discuss the elements that simplify use of the system for users and administrators.
  - Users should be able to use the system's functionality in the fewest clicks possible.
- APIs
  - Existing resource databases will need to interface with the new web application.
  - The platform should be designed to leverage existing transportation planning and scheduling technology platforms through the use of APIs.
- Care and maintenance of data
  - Describe the care and maintenance required for the proposed system including the general requirements for updating data and content. Discuss in detail the type of staff people necessary for this maintenance.

## **Development Phases**

The following must be functional at launch:

Phase I - Rider eligibility and trip discovery

- System provides ride-seekers and information & referral specialists with information on eligibility, transportation provider, and trip/route options based on the rider's inputs into a defined set of questions.

Future Phases - IM is interested in systems designed to include the following at launch or in future phases:

- Ride scheduling and dispatching
  - System enables seamless linkage to a wide variety of existing private and human resource agency platforms to access reservation system information,
  - Enables other private and human resource agency platforms to link directly to the resource database, and enables information to be delivered from existing commercial scheduling and dispatching software;
- Financial operations that include provider/agency billing and customer payment capability

- Enables payment transactions, billing, and settlement of accounts.

The CONSULTANT shall design user interface for the system using visual prototypes to communicate the overall design, user interface, and functional capabilities of the application and present the design to IM and make revisions as necessary until the design accurately reflects an appropriate balance of goals, objectives, and requirements.

The CONSULTANT shall develop and test the system using a staged development approach, to allow the opportunity to test and comment on the system through the various stages of development. Customer feedback shall be incorporated into the system so that the final product effectively meets stakeholder needs.

The CONSULTANT shall deploy the system and train the client on (a) procedures for using the platform to maintain and update the database; and (b) how to use the system to respond to ride-seeker requests.

### Project Tasks

The technical approach and work plan should demonstrate the ability to meet the tasks as identified in Exhibit B and identify a schedule for completion of each task within a 6-month period. Detail how the following task list will be addressed in the proposal. Ensure that all elements of the scope are included in the applicable task.

The CONSULTANT shall be responsible for the following tasks:

1. The item(s) to be procured or service to be performed is urgently require
2. Delivery or performance will be unduly delayed by failure to make award promptly;  
or,
3. Failure to make award will otherwise cause undue harm to MATA or the Federal Government.

- c. Protests made after contract award shall be received no later than seven (7) calendar days afterwards. Protests received after award will be reviewed by the Contracting Officer and MATA's General Counsel.

In instances where the award has been made, the CONTRACTOR shall be furnished with the notice of the protest and the basis therefore. If the CONTRACTOR has not executed the Contract as of the date the protest is received by MATA, the execution of the Contract will not be made prior to seven (7) days after resolution of the protest unless MATA determines that:

1. The item(s) to be procured or service to be performed is urgently required;
2. Delivery or performance will be unduly delayed by failure to make award promptly;  
or,
3. Failure to make award will otherwise cause undue harm to MATA or the Federal Government.

The process for resolving protests listed above in Section (a) will be followed for any protest received under this section.

- d. Appeals and requests for reconsideration of the determination of the Contracting Officer of protests under (a), (b) and (c) must be submitted to the Chief Executive Officer and received within seven (7) days after the date of the written determination by the Contracting Officer. The Chief Executive Officer may request additional information from the appealing party and information or a response from other Proposers, which shall likewise be submitted in writing to the Chief Executive Officer not later than ten (10) days from the date of MATA's request. So far as practicable, appeals will be decided upon the basis of the written appeal, information, and written response submitted by the appealing party and other Proposers; all parties are urged to make written submissions as complete as possible. Failure of any party to timely respond to a request for information may be deemed by MATA that such party does not desire to participate in the proceeding, does not contest the matter, or does not desire to submit a response; and, in such event, the appeal will proceed and will not be delayed due to the lack of a response. Upon receipt and review of written submissions and any independent investigation deemed appropriate by MATA, the Chief Executive Officer shall either (a) render a decision, or (b) at the sole election of the Chief Executive Officer, conduct an informal hearing at which the interested participating parties will be afforded an opportunity to present their respective positions and facts, documents, justification, and technical information in support thereof. Parties may, but

are not required to, be represented by counsel at the informal hearing, which will not be subject to formal rules of evidence or procedures. Following the informal hearing, the Chief Executive Officer shall render a decision, which shall be final and advise all interested parties thereof in writing but no later than ten (10) days from the date of the informal hearing.

- e. Under certain limited circumstances, an interested party may protest to the Federal Transit Administration (FTA) the award of a Contract pursuant to an FTA grant. FTA's review of any protest will be limited to:
    - 1. Alleged failure of MATA to have written protest procedures or alleged failure to follow such procedures.
    - 2. Alleged violations of a specific Federal requirement that provides an applicable complaint procedure which shall be submitted and processed in accordance with that Federal regulation.
  - f. Protestors shall file a protest with FTA not later than five (5) working days after a final decision of MATA's CEO is rendered under the MATA protest procedure. In instances where the protestor alleges that MATA failed to make a final determination on the protest, the protestor shall file a complaint with FTA not later than five (5) Federal working days after the protestor knew or should have known of MATA's failure to render a final determination on the protest.
  - g. Submission of Protest to FTA
    - 1. Protests shall be filed with the appropriate FTA Regional Office with a concurrent copy to MATA.
    - 2. The protest filed with FTA shall:
      - (i) Include the name and address of the protestor.
      - (ii) Identify MATA project number and the number of the Contract Solicitation.
      - (iii) Contain a statement of the grounds for the protest and any supporting documentation. This should detail the alleged failure to follow protest procedures or the alleged failure to have procedures and be fully supported to the extent possible.
      - (iv) Include a copy of the local protest filed with MATA and a copy of the MATA decision, if any.
13. Correspondence - The Proposer is required to show on all correspondence with MATA and FTA, the following: **RFP No. 16-15.1**. Communication with MATA should be mailed directly to Frances Boyland, Senior Contract Administrator at MATA, 1370 Levee Road, Memphis, TN 38108, or sent

- c. At the election of MATA, the invalidity or illegality of any provisions of this Contract, other than arising from the fiscal inability of MATA to pay the compensation due to the CONTRACTOR as same becomes due, as determined by a court of last resort of competent jurisdiction, shall not affect the validity of the remainder of this Contract, and this Contract shall remain in full force and effect as if such illegal or invalid provisions were not contained herein.

23. Patent Rights – (Applicable to Contracts for Planning, Research, Development and/or Demonstration Projects Only)
  - a. General. If any invention, improvement, or discovery of the CONTRACTOR or of any subcontractor, lessee, third party contractor, or other participant at any tier of the Project is conceived or first actually reduced to practice in the course of or under the Project, and that invention, improvement, or discovery is patentable under the laws of the United States of America or any foreign country, the Recipient agrees to notify FTA immediately and provide a detailed report in a format satisfactory to FTA.
  
  - b. Federal Rights. The CONTRACTOR agrees that its rights and responsibilities, and those of each subcontractor, lessee, or other participant at any tier of the Project, pertaining to that invention, improvement, or discovery will be determined in accordance with applicable Federal laws and regulations, including any waiver thereof. Absent a determination in writing to the contrary by the Federal Government, the Recipient agrees to transmit to FTA those rights due the Federal Government in any invention, improvement, or discovery resulting from that subcontract, lease, or arrangement, as specified in 35 U.S.C. §§ 200 *et seq.*, and U.S.

Department of Commerce regulations, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” 37 C.F.R. Part 401, irrespective of the status of the CONTRACTOR, subcontractor, lessee, third party contractor or other participant in the Project (*i.e.*, a large business, small business, State government, State instrumentality, local government, Indian tribe, nonprofit organization, institution of higher education, or individual).

- c. License Fees and Royalties. FTA considers income earned from license fees and royalties for patents, patent applications, and inventions produced under the Project to be program income. Except to the extent FTA determines otherwise in writing, as provided in 49 C.F.R. Parts 18 and 19, the CONTRACTOR has no obligation to the Federal Government with respect to that program income, apart from compliance with 35 U.S.C. §§ 200 *et seq.*, which applies to patent rights developed under a research project.

24. **Rights in Data – (Applicable to Contracts for Planning, Research, Development and/or Demonstration Projects Only; Federal Rights in Data provisions not applicable when open source code software is being used, per FTA Third Party Procurement FAQ 3/16/16)**

- a. Definition. The term “subject data,” as used in this Section 18 of the FTA Master Agreement, means recorded information, whether or not copyrighted, that is delivered or specified to be delivered under the Grant Agreement or Cooperative Agreement for the Project. Examples include, but are not limited to: computer software, standards, specifications, engineering drawings and associated lists, process sheets, manuals, technical reports, catalog item identifications, and related information. “Subject data” do not include financial reports, cost analyses, or other similar information used for Project administration.
- b. General. The following restrictions apply to all subject data first produced in the performance of the Contract for the Project:
  - (1) Except for its own internal use, the CONTRACTOR may not publish or reproduce subject data in whole or in part, or in any manner or form, nor may the CONTRACTOR authorize others to do so, without the prior written consent of the Federal Government, unless the Federal Government has previously released or approved the release of such data to the public.
  - (2) The restrictions on publication of Paragraph 18(b) (1) of the FTA Master Agreement, however, do not apply to a Contract with an institution of higher learning.
- c. Federal Rights in Data and Copyrights. The CONTRACTOR agrees to provide to the Federal

Government a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for Federal Government purposes the subject data described in this Subsection 18.c of the FTA Master Agreement. As used herein, “for Federal Government purposes,” means use only for the direct purposes of the Federal Government. Without the copyright owner’s consent, the Federal Government may not provide or otherwise extend to other parties the Federal Government’s license to:

- (1) Any subject data developed under the Contract for the Project, or under a subcontract, lease, third party contract or other arrangement at any tier of the Project, supported with Federal assistance derived from the Contract for the Project, whether or not a copyright has been obtained; and
  - (2) Any rights of copyright to which a CONTRACTOR, subcontractor, lessee, third party contractor, or other participant at any tier of the Project purchases ownership using Federal assistance.
- d. Special Federal Rights in Data for Research, Development, Demonstration, and Special Studies Projects. In general, FTA’s purpose in providing Federal assistance for a research, development, demonstration, or special studies Project is to increase transportation knowledge, rather than limit the benefits of the Project to Project participants. Therefore, when the Project is completed, the CONTRACTOR agrees to provide a Project report that FTA may publish or make available for publication on the Internet. In addition, the CONTRACTOR agrees to provide other reports pertaining to the Project that FTA may request. The CONTRACTOR agrees to identify clearly any specific confidential, privileged, or proprietary information it submits to FTA. In addition, except to the extent that FTA determines otherwise in writing, the CONTRACTOR to support a research, development, demonstration, or a special studies Project agrees that, in addition to the rights in data and copyrights that it must provide to the Federal Government as set forth in Subsection 18.c of the FTA Master Agreement, FTA may make available to any FTA CONTRACTOR, subcontractor, or other participant at any tier of the Project, either FTA’s license in the copyright to the subject data or a copy of the subject data. If the Project is not completed for any reason whatsoever, all data developed under the Project shall become subject data as defined in Subsection 18.a of the FTA Master Agreement and shall be delivered as the Federal Government may direct. This Subsection 18.d, however, does not apply to adaptations of automatic data processing equipment or programs for the CONTRACTOR’s use when the costs thereof are financed with Federal assistance through an FTA capital program.
- e. License Fees and Royalties. FTA considers income earned from license fees and royalties for copyrighted material, or trademarks produced under the Project to be program income. Except to the extent FTA determines otherwise in writing, as provided in 49 C.F.R. Parts 18 and 19,

the CONTRACTOR has no obligation to the Federal Government with respect to that program income, apart from compliance with 35 U.S.C. §§ 200 *et seq.*, which applies to patent rights developed under a research project.

- f. Hold Harmless. Except as prohibited or otherwise limited by State law or except to the extent that FTA determines otherwise in writing, upon request by the Federal Government, the CONTRACTOR agrees to indemnify, save, and hold harmless the Federal Government and its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the CONTRACTOR of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under the Project. The CONTRACTOR shall not be required to indemnify the Federal Government for any such liability caused by the wrongful acts of Federal employees or agents.
  - g. Restrictions on Access to Patent Rights. Nothing in Section 18 of the FTA Master Agreement pertaining to rights in data shall either imply a license to the Federal Government under any patent or be construed to affect the scope of any license or other right otherwise granted to the Federal Government under any patent.
  - h. Data Developed Without Federal Funding or Support. In connection with the Project, the CONTRACTOR may find it necessary to provide data to FTA developed without any Federal funding or support by the Federal Government. The requirements of Subsections 18.b, 18.c, and 18.d of the FTA Master Agreement do not apply to data developed without Federal funding or support by the Federal Government, even though that data may have been used in connection with the Project. Nevertheless, the CONTRACTOR understands and agrees that the Federal Government will not be able to protect data from unauthorized disclosure unless that data is clearly marked “Proprietary” or “Confidential.”
  - i. Requirements to Release Data. To the extent required by U.S. DOT regulations, “Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,” at 49 C.F.R. § 19.36(d), or other applicable Federal laws or Federal regulations, the CONTRACTOR understands and agrees that the data and information it submits to the Federal Government may be required to be released in accordance with the Freedom of Information Act (or another Federal law or Federal regulation providing access to such records).
25. Vendor Responsibility - It is the intent of these specifications to provide for goods of first quality and the workmanship must be the best obtainable in the various trades. The design of the goods, which the manufacturer proposes to furnish, must be of substantial and durable construction in all respects. No advantage shall be taken by the Proposer or manufacturer in the omission of any part

or detail, which goes to make the product complete and ready for installation and use.

The vendor shall assume responsibility for all materials used in the Proposal item whether the vendor manufactures the same or purchased ready-made from a source outside the vendor's company.

26. References - Proposer shall provide with his Proposal at least five references for projects similar to that described in this Request for Proposal. The following must be provided: company name, address and telephone number, fax number, a contact person, and the dates of the contract. The references given should be on contracts within a 12-month period prior to the Proposal due date.
27. Delivery – Proposals shall provide for delivery of all equipment or supplies to MATA, 1370 Levee Road, Memphis, TN 38108, unless stated otherwise in Sections A or B.
28. Delivery Schedule - Hours of delivery shall be any weekday between 8:30 a.m. and 4:00 p.m., unless stated otherwise in Sections A or B.
29. Preference for United States Products and Services. To the extent applicable, the CONTRACTOR agrees to comply with the following U.S. preference requirements:
  - a. Buy America (Applicable to Contracts Exceeding \$100,000) - The CONTRACTOR agrees to comply with 49 U.S.C. § 5323(j), FTA regulations, “Buy America Requirements,” 49 C.F.R. Part 661, and implementing guidance FTA may issue. A Buy America certificate (Exhibit II), as per attached format, must be completed and submitted with the Proposal or the Proposal will be considered non-responsive.

A waiver from the Buy America provision may be sought by MATA if grounds for the waiver exist. Section 165a of the Surface Transportation Assistance Act of 1982 permits FTA’s participation in this Contract only if iron, steel and manufactured products used in the Contract are produced in the United States.

- b. Cargo Preference—Use of United States-Flag Vessels. The CONTRACTOR agrees to comply with U.S. Maritime Administration regulations, “Cargo Preference—U.S.-Flag Vessels,” 46 C.F.R. Part 381, to the extent those regulations apply to the Project. Specifically, the CONTRACTOR agrees:
  1. To utilize privately owned United States-Flag Commercial vessels to ship at least 50% of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, materials, or commodities pursuant to this section, to the extent such vessels are available at fair and reasonable rates to United States-Flag Commercial vessels.

2. To furnish within thirty (30) days following the date of loading for shipments originating within the United States, or within thirty (30) working days following the date of loading for shipment originating outside the United States, a legible copy of a rated, On-Board Commercial Ocean Bill-Of-Lading in English for each shipment of cargo described in paragraph one above to MATA (through the prime CONTRACTOR in the case of subcontractor Bills-of-Lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, 400 Seventh Street, S.W., Washington, DC 20590, marked with appropriate identification of the project.
  - c. Fly America. The CONTRACTOR understands and agrees that the Federal Government will not participate in the costs of international air transportation of any persons involved in or property acquired for the Project unless that air transportation is provided by U.S.-flag air carriers to the extent service by U.S.-flag air carriers is available, consistent with the requirements of the International Air Transportation Fair Competitive Practices Act of 1974, as amended, 49 U.S.C. § 40118, and U.S. General Services Administration (U.S. GSA) regulations “Use of United States Flag Air Carriers,” 41 C.F.R. §§ 301.131 through 301.143.
30. Debarment, Suspension, and Other Responsibility Matters (Applicable to Contracts Exceeding \$25,000) - Unless otherwise permitted by law, any person that is debarred, suspended, or voluntarily excluded may not take part in a federally covered transaction, either as participant or a principal, during the period of debarment, suspension, or voluntary exclusion. Accordingly, neither FTA nor MATA may enter into any transaction with such debarred, suspended or voluntarily excluded persons during such period.
- A certification process has been established by 49 CFR, Part 29 as a means to ensure that debarred, suspended, or voluntarily excluded persons do not participate in a federally assisted project. Each CONTRACTOR and subcontractor must provide to MATA a signed certification in compliance with 49 CFR, Part 29 as part of this Contract. (Exhibit III)
31. Prohibited Interests - No member, officer, or employee of MATA, MTM, First Transit, Inc., or the City of Memphis during his or her tenure or one year thereafter shall have interests, direct, or indirect in this Contract or the proceeds thereof, or if a conflict, real or apparent, as defined in MATA's Code of Ethics, would be involved.
  32. Copeland “Anti-Kickback” Act, as amended (Applicable to Construction Contracts) - The CONTRACTOR shall comply with the Copeland “Anti-Kickback” Act, 18 U.S.C. 874 and 40 U.S.C. 276c, and U.S. Department of Labor (DOL) regulations, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in part by Loans or Grants from the United States”, 29 C.F.R. Part 3. In addition to other requirements that may apply:

- a. The CONTRACTOR will not induce, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which that employee is otherwise entitled.
- b. MATA agrees to report every suspected or reported violation of the Copeland “Anti-Kickback” Act or its Federal implementing regulations to FTA.

33. Termination of Contract -

- a. MATA may terminate this Contract without cause by giving fifteen (15) days written notice to the CONTRACTOR thereof, and specifying the effective date of termination.

If the Contract is terminated by MATA as provided herein, the CONTRACTOR will be paid for its satisfactory services completed through the date of termination specified by MATA. Payment for services in progress shall be considered at the sole discretion of MATA, the City of Memphis, TN, their officers, and agents.

- b. If, through any cause, the CONTRACTOR shall fail to fulfill in timely and proper manner its obligations under this Contract, or shall violate any of the covenants, agreements, or stipulations of this Contract, MATA shall thereupon have the right to terminate this Contract by giving written notice to the CONTRACTOR for such termination and specifying the effective date of such termination. In the event of termination, the CONTRACTOR shall be entitled to just and equitable compensation for any satisfactory work through the date of termination specified by the MATA.
- a. In the event of default by the CONTRACTOR, MATA shall be entitled to all of its reasonable expenses, and its costs to include, but not limited to its reasonable attorney's fees incurred by reason of such default.
- d. In addition to the foregoing, MATA reserves the right to cancel any services or portion of services to be provided hereunder upon written notice to the CONTRACTOR specifying the canceled services and the effective date of such cancellation. In the event of such cancellation, the CONTRACTOR shall be compensated for satisfactory work completed and, further, the compensation due to the CONTRACTOR hereunder shall be reduced accordingly effective said cancellation date.

34. Employment of Contractor - MATA hereby agrees to engage the CONTRACTOR, and the CONTRACTOR hereby agrees to perform the services hereafter set forth in connection with the project.

35. Interest of the Contractor - The CONTRACTOR covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services required to be performed under this Contract. The CONTRACTOR further covenants that in the performance of this Contract no person having any such interest shall be employed.
36. Independent Contractor - The CONTRACTOR is at all times an independent contractor and in no wise shall be deemed to be in joint venture, partnership, or other relationship with MATA.
37. Indemnification - The CONTRACTOR shall indemnify, save, defend, and hold MATA, the City of Memphis, TN, First Transit, Inc. and MTM, their officers, agents and employees free from all losses, damages, claims, and expenses in any wise arising or resulting from the negligent and/or intentional actions and omissions of the CONTRACTOR, its employees, agents, or contractors in the performance of its services hereunder.
38. Cost Analysis - MATA reserves the right to conduct a cost or price analysis for any purchase. MATA may be required to perform a cost analysis when competition is lacking for any purchase. Sole source procurements or procurements which result in a single Proposal being received will be subject to a cost analysis which will include the appropriate verification of cost data, the evaluation of specific elements of costs and the projection of the data to determine the effect on Proposal prices. MATA may require a pre-award audit, and potential contractors shall be prepared to submit data relevant to the proposed work which will allow MATA to sufficiently determine that the proposed price is fair, reasonable, and in accordance with Federal, State, and local regulations. Procurements resulting in a single Proposal will be treated as a negotiated procurement and MATA reserves the right to negotiate with the single Proposer to achieve a fair and reasonable price. If both parties cannot agree upon a negotiated price, MATA reserves the right to reject the single Proposal.

Contract change orders or modifications will be subject to a cost analysis.

39. False or Fraudulent Statements or Claims - The CONTRACTOR acknowledges and agrees that:
  - a. The Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 *et seq.* and U.S. Department of Transportation (DOT) regulations “Program Fraud Civil Remedies,” 49 C.F.R. Part 31, apply to its activities in connection with the Project. Accordingly, by executing the Contract, the CONTRACTOR certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, or it may make in connection with the Project covered by the Contract. In addition to other penalties that may apply, the CONTRACTOR also acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, certification, assurance, or representation to the Federal Government, the Federal Government

reserves the right to impose on the CONTRACTOR the penalties of the Program Fraud Civil Remedies Act of 1986, as amended, to the extent the Federal Government deems appropriate.

- b. If the CONTRACTOR makes a false, fictitious, or fraudulent claim, statement, submission, certification, assurance, or representation to the Federal Government or includes a false, fictitious, or fraudulent statement or representation in any agreement with the Federal Government in connection with a project authorized under 49 U.S.C. chapter 53 or any other Federal law, the Federal Government reserves the right to impose on the CONTRACTOR the penalties of 49 U.S.C. § 5323(1), 18 U.S.C. § 1001, or other applicable Federal law to the extent the Federal Government deems appropriate.
40. No Contingency Fees - The CONTRACTOR shall warrant that no person or selling agency has been employed or retained to solicit or secure this Contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the CONTRACTOR for the purpose of securing business, for the breach or violation of which warranty MATA shall have the right to annul said Contract without liability or, in its discretion, to deduct from the Contract price or consideration the full amount of such commission, percentage, brokerage or contingent fee.
41. Excluded Facilities - The CONTRACTOR shall comply with the provisions of 40 CFR Part 15 which prohibit the use of facilities included on the Environmental Protection Agency list of violating facilities.
42. Federal Changes - The CONTRACTOR shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the FTA Master Agreement, as they may be amended or promulgated from time to time during the term of this contract. The CONTRACTOR's failure to so comply shall constitute a material breach of this contract.
43. Lobbying Requirements (Applicable to Contracts Exceeding \$100,000) - Federal regulations require MATA to include certifications from contractors. Accordingly, the CONTRACTOR must sign the attached certification. (Exhibit F)

By executing this Contract, the CONTRACTOR certifies to the best of its knowledge and belief that:

- a. No Federal appropriated funds have been paid or will be paid on behalf of the undersigned to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making

of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

- b. If any funds other than Federal appropriate funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the CONTRACTOR shall complete and submit Office of Management and Budget Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- c. The CONTRACTOR shall insert the language of this certification in all subcontracts, and require that all subcontractors at any tier shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

- 44. Recycled Products - The CONTRACTOR agrees to comply with all the requirements of Section 6002 of the Resource Conservation and Recovery Act (RCRA), as amended (42 U.S.C. 6962), including but not limited to the regulatory provisions of 40 CFR part 247, and Executive Order 12873, as they apply to the procurement of the items designated in Subpart B of 40 CFR Part 247.
- 45. No Government Obligation
  - a. MATA and the CONTRACTOR acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this contract and shall not be subject to any obligations or liabilities to MATA, CONTRACTOR, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying contract.
  - b. The CONTRACTOR agrees to include the above clause in each subcontract. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.
- 46. Incorporation of Federal Transit Administration (FTA) Terms - The preceding provisions include, in part, certain Standard Terms and Conditions required by DOT, whether or not expressly set forth

in the preceding contract provisions. All contractual provisions required by DOT, as set forth in FTA Master Agreement, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Agreement. The CONTRACTOR shall not perform any act, fail to perform any act, or refuse to comply with any MATA requests, which would cause MATA to be in violation of the FTA terms and conditions.

47. Access Requirements for Persons with Disabilities - The CONTRACTOR agrees to comply with the requirements of 49 U.S.C. § 5301(d) which expresses the Federal policy that the elderly and persons with disabilities have the same right as other persons to use mass transportation service and facilities, and that special efforts shall be made in planning and designing those services and facilities to implement those policies. The CONTRACTOR also agrees to comply with all applicable requirements of section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. § 794, which prohibits discrimination on the basis of handicaps, and with the Americans with Disabilities Act of 1990 (ADA), as amended, 42 U.S.C. §§ 12101 *et seq.*, which requires the provision of accessible facilities and services, and with the following Federal regulations, including any amendments thereto:

- a. Except as otherwise provided in this Contract, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the CONTRACTOR. The Contracting Officer may consult with the Construction Manager if one has been appointed for this project. The decision of the Contracting Officer shall be final and conclusive unless, within ten (10) days from the receipt of such copy, the CONTRACTOR mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Chief Executive Officer of MATA. The Chief Executive Officer shall review the dispute, related documents and the Contracting Officer’s Final Decision. The Chief Executive Officer may consult with the Construction Manager and the Contracting Officer. The decision of the Chief Executive Officer shall be final and conclusive unless, within 10 days from the date of the receipt of such copy, the CONTRACTOR mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Board of the Memphis Area Transit Authority. The decision of the Board or its duly authorized representative for the determination of such appeals shall be final and conclusive unless in proceedings initiated by either party for review of such decision in a court of competent jurisdiction, the Court determines the decision to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or is not supported by substantial evidence. In connection with any appeal proceeding under this Article, the CONTRACTOR shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the CONTRACTOR shall proceed diligently with the performance of the Contract and in accordance with the Contracting Officer’s decision.
- b. This Section 48 does not preclude consideration of questions of law in connection with decisions provided for in Paragraph a. above. Nothing in this Contract, however, shall be construed as making final the decisions of the Board or its representative on a question of law.

49. Nondiscrimination - Title VI of the Civil Rights Act - The CONTRACTOR will comply and will assure the compliance by subcontractors under this project with all provisions prohibiting discrimination on the basis of race, color, or national origin of Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. Part 21 and the assurances by MATA pursuant thereto.
50. Disadvantaged Business Enterprises - To the extent authorized by Federal law, the CONTRACTOR agrees to facilitate participation by Disadvantaged Business Enterprises (DBEs) in the Project and assures that each subcontractor, lessee, third party contractor, or other participant at any tier of the Project will facilitate participation by DBEs in the Project to the extent applicable as follows:
- a. The CONTRACTOR agrees and assures that it shall comply with section 1101(b) of SAFETEA-LU, 23 U.S.C. § 101 note, and U.S. DOT regulations, “Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs,” 49 C.F.R. Part 26.

Part 26. The CONTRACTOR agrees to take all necessary and reasonable steps as set forth in 49 C.F.R. Part 26 to ensure nondiscrimination in the award and administration of all subcontracts, leases, third party contracts, and other arrangements supported with Federal assistance derived from U.S. DOT.
51. Prompt Payment - The CONTRACTOR agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than 10 days from receipt of each payment the prime contractor receives from MATA. The CONTRACTOR agrees further to return retainage payments to each subcontractor within 10 days after the subcontractor’s work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of MATA. This clause applies to both DBE and non-DBE subcontractors. If the CONTRACTOR determines the work to be unsatisfactory, it must notify MATA’s Contracting Officer, Project Manager and DBE Liaison Officer immediately, in writing, and state the reasons. Failure to comply with this requirement will be construed to be a breach of contract and subject to contract termination.
52. Nondiscrimination in Federal Public Transportation Programs - The CONTRACTOR agrees to comply, and assures the compliance of each subcontractor, lessee, third party contractor, or other

participant at any tier of the Project, with the provisions of 49 U.S.C. § 5332, which prohibit discrimination on the basis of race, color, creed, national origin, sex, or age, and prohibits discrimination in employment or business opportunity.

53. Contract Work Hours and Safety Standards Act - The CONTRACTOR agrees to comply, and assures the compliance of each subcontractor, lessee, third party contractor, and other participant at any tier of the Project, with the employee protection requirements for non-construction employees of the Contract Work Hours and Safety Standards Act, as amended, 40 U.S.C. §§ 3701 *et seq.*, in particular with the wage and hour requirements of section 102 of that Act at 40 U.S.C. § 3702, and with implementing U.S. DOL regulations, “Labor Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction (also Labor Standards Provisions Applicable to Non-construction Contracts Subject to the Contract Work Hours and Safety Standards Act),” 29 C.F.R. Part 5.
54.
